

To our customers
and business partners

Staad, in October 2024

Living sustainability - for safe products and stable prices!

Dear customers and business partners,

In the past year, we have managed to take the enormous entrepreneurial challenges as an opportunity and keep prices stable for you as of January 1, 2025.

On the one hand, we have successfully invested in our employees, processes and facilities, while on the other hand focus even more strongly on safe and environmentally friendly products. These efforts reduce our CO2 footprint significantly once again and you benefit from even more sustainably manufactured products - ecologically, economically and socially responsible.

We continue to invest in sustainability, above all in occupational safety, resource/environmental conservation and energy savings. See also current data at grafbelts.ch/en/sustainability

You can always rely on us and our products - that's what we stand for with our name!

Kind regards

Edgar Seiz
Managing Director

Fredi Treitinger
